

The New York State Marine Education Association,
in support of 350.org's Weekend for Climate Action in
Copenhagen, urges you to join us for a

New York City Candlelight Vigil for Climate Change

Friday, December 11th, 2009, 6:00 – 8:00 pm
Pier 66 Maritime, West 26th Street and the Hudson River

Why? From December 7th to December 18th, world leaders will gather in Copenhagen to negotiate a binding agreement to address the need for global action in the fight against climate change. On December 11th, please join us for a local candlelight vigil, as others from all around the world do the same. Through the worldwide vigils, we remind everyone that climate change is about real people, families, and livelihoods, and send a message to world leaders, policymakers and legislators that the people demand real, meaningful, sustainable solutions. Together, we can make a difference.

When? December 11, 2009, 6:00 – 8:00 pm

Where? Pier 66 Maritime, at 26th Street and 12th Avenue on the Hudson River

Who? All are welcome! The greater our numbers, the greater the impact we can make. Join members of the New York State Marine Education Association (NYSMEA), as well as anyone and everyone interested in reducing our carbon footprint and raising awareness of this important issue, for an evening of information, conversation, candlelight and community.

What should I bring?

- Bring people! Make it a family event – bring old and young alike.
- Warm clothes! December nights on the water are chilly. Wear layers!
- Candles! What's a candlelight vigil without candles?
- A smile! We look forward to sharing the peaceful goodwill of the season with you as we stand together for this important cause.
- Something with "350" on it - the highest level of CO2 in ppm that our atmosphere can tolerate. (We're currently at 387 ppm)
